Adam Kustura | Unit Stills Photographer

## **“Stealthy, Professional, Passionate, Dedicated**

Adam has an acute awareness of the needs of any production. He knows exactly when to wedge himself under a table to grab the perfect shot, when to pose actors between setups. He is respectful, generous and kind. His presence puts talent and crew at ease. I can't say enough how much trust and appreciation I have for Adam's eye, his professionalism and love for each project. He's been my first choice for unit stills ever since."

**- Tracy Mathewson | Writer/Director**

## “Exceptional Unit Photographer

Our film was intimate and powerful, so it was important that our photographer didn't put our actors off. Adam was like a ninja, he moved silently with grace and curiosity. The result was unit stills and BTS that captured the heart of our team and the soul of our film. Adam is now the photographer I recommend to my peers, you would be a fool not to work with Adam”  
- Kate Winter | Writer/Producer/Actor

## **“So passionate about cinema, takes his craft seriously**

I love Adam to bits, he's really lovely to be around and captures the most beautiful candid moments on set. He's very respectful of cast and crew, most of the time you don't even feel his presence and somehow he's gotten some exceptional shots. Just leave him to it and he'll come back with magic. Adam is a dream”.
